SUPPORTING SUMMARY STATEMENT

THE MAJOR AREAS IN THE PROPOSED PLAN -

I. FINANCIAL

- a. Provides possible assurance that the costs of education would be equalized throughout the area.
- b. Provides the means to simplify disposition of assets and liabilities and contractual arrangements by having these obligations assumed by a new form of corporation.

II. PLANNING

- a. Provides a reasonable base for planning educational functions that conform to the demands of the area.
- b. Provides the possibility for considerable flexibility in planning transportation of students to the schools.

III. ADMINISTRATION

- a. Provides an administrative structure that would place legal responsibilities for education in the hands of a school board of trustees responsible to the people of the entire area. Consequently it becomes possible for the school board of trustees to operate in accordance with the educational demands viewed on an area basis.
- b. Provides within this framework for the school board of trustees to select a superintendent of schools to serve as their executive officer and professional consultant responsible to the board.

The Community School Corporation will need to plan for special and supplementary educational services and opportunities for education.

In the judgement of the Lake County Committee for the Reorganization of School Corporations, the proposed plan represents an attempt to preserve local autonomy.
